## Financial Management Solutions

## OVERVIEW

An accounting software solution should provide your organization with maximum control over data, efficiency in business processes, and, most importantly, the ability to make sound fiscal decisions.

Mitchell Humphrey's FMS II system provides clients in government, insurance, retail, services, real estate, not-for-profit, and many other markets with a full suite of accounting solutions that promote **faster implementations**, providing **better access to information**, resulting in **smarter decision making**.

### FULL SUITE OF INTEGRATED SOLUTIONS

- **General Ledger**  
Provides unsurpassed flexibility and power. You gain maximum control over your accounting operations.
- **Accounts Payable**  
Delivers the tools you need to meet current cash requirements while planning for future outlays.
- **Accounts Receivable**  
A complete billing, statement, cash receipts, and receivables management solution.
- **Budgeting & Financial Planning**  
Provides the tools you need to control the budgeting process. Makes budget building quick and easy.
- **Fixed Assets**  
Provides all the tools and information you need to effectively manage your investment in fixed assets.
- **Fund and Grant Accounting**  
The specialized fund accounting management features you need for not-for-profit, for-profit, and grant funds.
- **Inventory**  
Provides you with effective control of your considerable investment in physical inventory.
- **Project Accounting**  
Accurate and timely project information allowing for tighter cost controls and improved project performance.
- **Purchasing & Requisitions**  
The information you need to effectively manage the purchasing cycle - from requisition through receiving.

### FASTER, LESS COSTLY IMPLEMENTATIONS

Mitchell Humphrey's implementations are faster and less costly than those of our competition. In fact, it's not unusual to install one of our systems in six to eight weeks. Among the factors that make this possible are:

- All implementation, training, and support services are provided by our own team of experienced CPAs and IT professionals. No third-party, inexperienced consultants.
- Seamless integration with your other key business systems is quick and easy thanks to our proprietary FMS II Generalized Conversion Programs (GenCons).
- Our software solutions adapt to the way you do business. There is never a need for you to change processes and policies to accommodate the software.

### BUY THE SOFTWARE ONCE AND FORGET IT

Mitchell Humphrey has been developing and delivering accounting software solutions since 1977. In that time, we have made many major improvements in the functionality and architecture of our products. Through all of these changes, we have never charged our clients for software improvements...**and we never will.**

In addition, we have never charged clients for moving to a new hardware platform. If you move to another hardware platform supported by Mitchell Humphrey, your software goes with you. You don't pay for it a second time. Plus, the software looks and works the same way, no matter what platform it's on. So there's no retraining cost.

## AVAILABLE BUSINESS INTELLIGENCE TOOLS

To be productive today, organizations need faster access to data. Furthermore, the right data must be available to the right people at every level of the organization.

Mitchell Humphrey has designed a complete suite of tools which are designed specifically for that purpose.

- **ASK FMS**

Provides your FMS II system users with an easy-to-use “wizard-driven” step by step process to build a query and produce a report.

- **FMS-EXEC**

Provides you with a fast, easy, two-way data transfer between FMS II and external spreadsheet programs including MS Excel and MS Access.

- **FMS-ONRAMP**

Provides a connection between your FMS II ledger data and Cognos PowerPlay, an award-winning reporting and analysis environment for enterprise applications.

- **FMS-WebLink**

Enables your FMS II users to access the system via web browser from any location anywhere in the world where you have local area network or Internet access.

- **FMS-DocuView**

An integrated document imaging solution that enables you to eliminate bulky paper files while keeping images of the original documents at your fingertips.

- **FMS-DataLink**

Allows you to quickly and easily select and retrieve the data you want from any FMS II ledger, and place it in a tabular form that other applications can understand.

- **FMS-StreamLine**

Enables you to streamline your workflow processes by eliminating the need to route paper documents for approval and automating exception reporting.

- **FMS-eLink**

Provides your FMS II users with the ability to email and FAX documents created in the system, including purchase orders, invoices, reports, and approval notices.

- **FMS-InfoLink**

Provides extended capabilities to attach and keep track of auxiliary documents (purchase orders, invoices, etc.)

## PROVEN IMPLEMENTATION METHODOLOGY

One of the primary distinguishing factors when evaluating software is in the implementation. At Mitchell Humphrey, we take great pride in being a “*solution provider*” not just a “*software vendor*.”

We have been perfecting our implementation methodology since 1977 and find the optimal way to start the implementation is with a Best Practices Review, designed to ensure that you realize maximum benefit from your FMS II solution.

Our unique approach provides a refreshing perspective and yields terrific results. In fact, we are so confident in our implementation methodology, that we provide clients with an implementation guarantee in their services contract.

## PARTNERS FOR SUCCESS

Mitchell Humphrey’s formula for success features a committed and ongoing effort to truly partner with our clients to ensure their own long-term success. We want to be more than just another software vendor. That is why we devote a major portion of our resources to providing the most responsive support in the business.

In fact, we invite you to talk to our clients. You’ll find that they will tell you that we run our business as if our very existence depends on their success. Because it does.

For further information on how Mitchell Humphrey can assist your organization, please feel free to contact our Sales Team at **800-237-0028**. We also invite you to learn more about us at [www.mitchellhumphrey.com](http://www.mitchellhumphrey.com).
