

PERIODIC INSPECTION TRACKING SYSTEM

Mitchell Humphrey's **Periodic Inspection Tracking System** helps increase your municipality's efficiencies in compliance tracking and managing for a variety of equipment and devices.

The system enables you to define and manage **any type of device** (elevators, elevator shafts, backflow preventors, etc.).

Tracks a host of activities and items including:

- Inspections
- Violations
- Invoices
- Payments
- Certificates

In addition, the system stores:

- All appropriate device codes for easy violation issuance
- Warning reports to notify users of violations due, payments due, and inspections due.

Track Ongoing Inspections via Automatic Job Scheduler

Create each type of inspection including 6-month, 1-year, 3-year, etc.

Integrate with Business Administrator

View interdepartmental reports containing activity data from all permit/licensing departments (e.g., building permits).

Integrate with Tax Utility Solution

Allows users to link to Tax Assessor data including property owner updates, etc.

PRODUCT BENEFITS:

- **Increase Revenue** – Track revenues more efficiently with detailed reports. Our system tracks inspections, violations, billing and invoicing.
- **Save Valuable Time** – Built-in features automate many time consuming tasks. Automatically calculates fees and records payment history.
- **Increase Staff Efficiency** – Eliminate paper and improve the efficiency of your staff. Our seamless software solution eases workflow, managing information through the licensing process.

PRODUCT FEATURES:

- **Easy-to-Use Interface** – Be up and running quickly with our Windows-based software. After a few hours of training, everyone in your office will be able to efficiently manage your municipality's marriage and pet licensing processes.
- **Customizable Reports** – flexible report generator offers multiple reporting options. Our solutions come with a variety of reports (many of which are configurable by the user) to extract all of the pertinent data from the system.
